ADVANTAGE OF USING AN ATTENDANCE

MANAGEMENT SYSTEM:- Tracking, storing and managing attendance is a regular task in schools, colleges, enterprises and other establishments. In an educational institution, the teachers need to track their student's attendance and similarly, in an enterprises, the employers have to track their employees' attendance. Managing attendance by calling out names or marking it using a pen on a register is a tedious task and an outdated process. So, it is essential for an organisation to opt for a smart attendance management system.
