

Attendance Management System

Khiromani Bai-18111031 6th semester Biomedical Engineering

FUTURE SCOPE:-

Attendance management system keeps track of daily attendance, working hours, breaks, losing, and logout time. It prevents staff's time theft. An attendance management system integrates all attendance device such as smart cards, biometric, and facial recognition device in real-time.

- ◆ Free approach to enter attendance.
- ◆ Free trouble to use.
- ◆ Better user interface.
- ◆ Highly reliable.
