Attendance Management System

Khiromani Bai-18111031 6th semester Biomedical Engineering

FUTURE SCOPE:-

Attendance management system keeps track of daily attendance, working hours, breaks , losing, and logout time. It prevents staff's time theft. An attendance management system integrates all attendance device such as smart cards, biometric, and facial recognition device in real-time.

◆ Free aprons to enter attendance.
◆ Free trouble to use.
◆ Better user interface.
◆ Highly reliable.
