CONCLUSION:-

The User Interface of it is very friendly and can be easily used by anyone. It also decreases the amount of time taken to write details and other modules. All the details about students, teachers, and their other tasks can only be seen by the verified users. This Attendance Management System is a solution to all the problem related to the attendance, message, fee status, courses taken by the teacher and the students, etc.

✦ This project will help the lecture to reduce their workload by reducing the time and calculations required to update the attendance manually.

✦ Student and parents will also view the attendance and curriculum details using the website.
